

Blanc de La Dauphine 2022

Bordeaux Blanc

Nestled in a curve of the Dordogne River, Château de La Dauphine stands in a 66-hectare hilly vineyard (80% Merlot and 20% Cabernet Franc), on some of the finest terroirs in the appellation, consisting of limestone, asteriated limestone, clay and limestone on Fronsac molasse, among others (14 in total).

Having gained organic certification in 2015, La Dauphine has reinforced its environmentally-friendly philosophy with biodynamic management, as well as obtaining various environmental certifications such as level 3 High Environmental Value. Thanks to this approach that respects all forms of life and plot-by-plot vinification in its ultra-modern winery, Château de La Dauphine has established itself as one of Bordeaux's outstanding properties, offering a full range of fine red, white and rosé wines that express the finesse and complexity of the exceptional terroir.

OWNER : Famille LABRUNE

DEPUTY CEO : Stéphanie BAROUSSE
